Students should bear in mind that some countries do not allow dual citizenship and that South Africa does not allow dual citizenship with countries who do not allow it. Therefore, to register as a South African citizen, students will be required to submit a South African passport or South African identity document. ***This category of students qualifies to pay local fees.***
- ii.* **Citizen of another country but with permanent residence in South Africa:** Permanent residence in South Africa entitles the holder to rights similar to that of South African citizens with a few exceptions. The students will be required to submit a valid passport with a South African permanent residence permit/stamp therein. ***This category of students qualifies to pay local fees.***
- iii.* **Refugees:** A refugee is a foreign national who has refugee status accorded by the United Nations High Commissioner for Refugees (UNHCR), has a South African identity book which is stamped as refugee status, and is normally valid for two years until permanent status is awarded. If not, accorded status reverts to “asylum seeker”. The Refugee Act, Act No. 130 of 1998 (Section 27) provides refugee students the right to study without a study permit. ***This category of students qualifies to pay local fees.***

- iv. **Asylum seekers:** An asylum seeker is a person who comes to South Africa and applies to the government for protection as a refugee. An asylum seeker should have a valid permit issued under the Immigration Act, Act No. 13 of 2002 (Section 13) Department of Home Affairs. Tuition fees are similar to those of local South African students and they pay local application fees. No medical aid cover is legally required, however, it is highly recommended.

- vi. **International Students who are married (including same sex marriages) to SA citizens or permanent residents** – pay international fees until they have obtained SA citizenship or permanent residency.
- vii. **International Students who are in life partnerships with SA citizens or permanent residents** – pay International fees until they have obtained SA citizenship or permanent residency.
- viii. **International Students who pay SA taxes (e.g. contract workers or temporary residents)** – the criterion of paying tax in South Africa does not change a person's immigration status and as such it is not sufficient for a reduction in international fees.
- ix. **International Students who pay SADC taxes** – paying tax in a SADC country does not change a person's immigration status and as such does not qualify for exemption from international fees.
- x. **SA & SADC Temporary Residents** – If there is an expiry visa date and if individuals are required to renew residence status periodically, then such individuals are not permanent residents of the country and do not qualify to pay local fees.
